NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets
He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H R Hoagland we feel pleasure in informing the public that in our opinion it is the safest and best method of coupling shafts or tongues to all vehicles that has ever been used

It fastens without bolt or screw and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient safe and secure

It is easy to change to the style for single buggy or other vehicle to which use and [illegible]. We have come to the conclusion to use this new style ourselves and recommend it [illegible] cases. We consider it far superior to the Brewster Patent heretofore considered the best in use

[DISPATCHES TO THE OREGONIAN]

EASTERN DATES TO MARCH 24

Congressional

WASHINGTON March [illegible] In the Senate Harlan from the Committee on Indian Affairs reported a bill to promote the civilization of the Indians and prepare them for the rights and duties of citizenship. It provides for the appointment of five majesties [illegible] Indians who with the Secretary of the Interior and Commissioner of Indian Affairs shall constitute a Board of Superintendents for the general management of Indian affairs

Sumner from the Committee on Foreign Relations reported adversely on the proposed amendment of the rules providing for the discussion of annexation treaties in open session. Sumner also supported the bill for the relief of J R Ross Browne, late Minister to China

Stewart from the Committee on Mines and Mining reported the House bill to amend the Mineral Land act of July 1866

The joint resolution directing the Secretary of State to pay out of the Japan indemnity fund the damage to the steamer *Monitor* fired into by the batteries at Mesoonon in 1864 passed

Sherman from the Finance Committee reported Sumner's bill to strengthen the legal reserves in banks etc recommending its indefinite postponement which was agreed to

House resolution for printing 10 000 copies of the report of the Committee on the Decline of American Commerce was adopted

The report of the Judiciary Committee in the case of Ames Senator elect from Mississippi was discussed by Conkling and Thurman in favor of the report and Rice, Howard and Thayer against. The opponents of the report contend that the announcement of Ames intention to reside in Mississippi was sufficient without action. The Senate adjourned

In the House Brooks of Massachusetts from sub committee on elections reported that Booker is entitled to retain his seat for the 4th Virginia District. Holland gave notice of a substitute declaring that Booker is disqualified by acts in support of the rebellion

The House proceeded to the consideration of the Utah polygamy bill as the special order. Ward of New York supported the bill. Schenck was as desirous as any man to put an end to that impure offensive and criminal condition of things now existing in Utah. He was not sure but some further act of positive legislation might be needed but there was too much in the bill before the House. He was inclined to believe that the advance of railroads telegraphs and the tide of immigration will be more effectual than all the enactments of Congress to accomplish the object in view. At all events it will be necessary to prune this bill of some of its provisions of test oaths, confiscation and war. He said there were a number of subjects of general interest from the Committee on Ways and Means which the House ought to be considering so as to send at least one of them to the Senate and he felt it his duty in order to get rid of this bill for the present, to move its postponement

Butler of Mass, hoped the subject would be finally disposed of without further postponement. If it were now laid aside the fact would be taken in Utah as evidence that the Governor recently sent there by the President would not be sustained in his endeavor to enforce the laws of the United States. If Congress was ever going to deal with the question of polygamy in Utah it should do so at once. He thought the sentiment of the people was enlisted in favor of this measure more than any other before the House. Therefore he suggested that the discussion go on with short speeches and the bill be voted on to-day or to morrow and sent to the Senate.

Schenck moved a postponement of three weeks. Johnson moved to lay the bill on the table. The latter motion was rejected, 40 to 14. Schenck withdrew his motion for postponement, and the discussion was continued with the understanding that a final vote will be taken to morrow

Blair arguing in favor of the bill alluded to a report that Brigham Young is now selecting a new location in Arizona.

Hooper of Utah explained that Young's trip to Arizona was simply his usual trip to the outlying settlements. He said Young will be home in six or eight weeks and said he is a permanent citizen of Salt Lake

On motion of Davis the section giving control of the matter of selection of jurors to the United States Marshal was amended so as to require the Marshal to summon one hundred jurors instead of thirty nine and out of that number select thirty nine to serve as grand and petit jurors

Cox explained that the vote of himself and others to table the bill was not intended to favor polygamy, but because he believed all measures of persecution defeat themselves

Pomeroy advocated the bill. Hooper protested against the bill as a design to violate the dearest interest of the people of Utah and fraught with evil

Washington News

WASHINGTON March 22—The House Foreign Committee have agreed to report a resolution directing the President to declare and maintain strict neutrality on the part of the United States in the present contest between Cuba and Spain and suspend all acts inconsistent with such neutrality and require that neutrality laws shall apply especially to Spain and Cuba

The House Naval Committee agreed to recommend the sale of the Brooklyn Navy Yard placing the proceeds in the Treasury and dividing the material among the other yards

A letter was received this morning from Deputy Commissioner Douglass announcing that no definite result concerning the frauds of the Bailey case is yet received but probably a full report on the matter can be made to morrow

The Senate Committee on Foreign Relations were to lay more emphatic their opposition to the San Domingo and St Thomas treaties and will urge that they be rejected by the Senate. The sense of the committee is also strongly expressed against the acquisition of any other foreign territory

The House Committee on Railroads to day agreed to report favorably on the Senate bill fixing the point of junction for the Union and Central Pacific railroads. It lies to the northwest of Ogden and gives those companies about nine sections of land for stations. The Mormons claim the ownership of this land but the bill in effect asserts that the title is in the United States and thus disposes of it. The committee also agreed to report with amendments the Senate Missouri Kansas and Texas railroad bill and the Senate Atlantic and Pacific railroad bill

CURRENT NOTES

A [illegible] paper says: [illegible] we find the advertisement of a Chinaman who asks for a situation to do general housework in some family

The Secretary of the Navy has answered the resolutions about repairing Spanish vessels in the Navy Yards by saying none are to be repaired because the docks are full. But he says it has been customary to repair vessels of nations with which we are at peace because they reciprocate

The bold Cubans who are driving out Spain from their native island by losing a [illegible] New York accelerated the exit of the Spaniards by eating a banquet on a Saturday night recently. They propose to utterly squelch the tyrants by holding mass meetings at various points in the United States

During the recent female suffrage convention in Brattleborough (Vt), a little boy was found in the street in tears and great trouble. "What is the matter?" asked a sympathising passer by. To which inquiry the little fellow blubbered out "My mother's gone to the the woman's town meeting and she didn't leave out nothing to eat."

Secretary Boutwell expresses himself as emphatically opposed to the removal of the revenue tax on incomes and says that the tax being paid by 256 000 persons it is the most popular as well as the most equitable source of revenue with the people. He will not oppose a reduction of the tax to three per cent. leaving the exemptions as they stand in the law soon to expire

A Texas paper tells how a serenading party wishing to compliment one of their lady friends repaired to her residence and soon strains of fairy like music stole upon the balmy air. After going through a choice programme vocal and instrumental a second story window was raised and the face of one of Africa's dark hued daughters protruded. "Look heah," said she "missus ain't here but won't you please play the Mockin' Bird for me?"

The Superintendent of the Virginia and Tennessee Railroad reports that in January 3 726 and in February 2 830 negroes passed over the road going South and the Lynchburg *Virginian* says: "When we remember that this exodus has been going on since last fall and that there are several other roads of exit, some idea may be formed of the heavy drain that has been made on the labor of the State. It is growing to be a serious matter. So the negroes are not overrunning the North and Democratic predictions, made at the time of emancipation are at fault again."

Among the minor results of the division of Virginia is the apportionment of the *ante bellum* State debt between West Virginia and the reconstructed State. Commissioners have been appointed by the authorities at Richmond and Wheeling to confer and report and it is anticipated that a speedy and satisfactory arrangement will be arrived at. The Richmond *Dispatch* says that the authorities of West Virginia have manifested a commendable spirit of fairness and a disposition to deal equitably which will go far to expedite the negotiation which it was feared would be attended with great difficulty

The New York *Tribune*, commenting upon the fact that a Georgian who was quite ravished by the histrionic excellence of a Mrs Oates, threw upon the stage a complete and handsome set of furs, says "It is to be hoped that this utilitarian taste will pass into a precedent. We have (we regret to say) seen actresses to whom the gift of a box of soap and another box of towels would have been most appropriate. We have seen actresses whose dresses (to borrow Talleyrand's mot) began too late and left off too soon and to whom a few gowns of the usual length would have been a seasonable donation. Flowers are well enough in their way but they do not supply the solid necessities of the theatrical ladies unless they are accompanied by ingeniously hidden greenbacks. We never see one of those variegated bunches thrown without thinking of the exclamation of Pauline in 'The Lady of Lyons': 'Ah! I wish I knew who sent me them are gloves.'"

The monthly statement of business at the New York Custom House during the month of February contains the following particulars. Number of vessels arrived from foreign ports with cargo which was fully discharged and return made thereof by Customs Inspectors was 254, to wit Steamships 63 ships 14; barks 69 brigs 60 schooners 49. Vessels bringing cabin and steerage passengers 38 via Steamships, 35 sailing vessels 3. Average length of voyage for steamers, 14¼ days; sailing vessels 53 days. Whole number of cabin passengers arrived 1,795; emigrants in steerage 6 361. Of the latter 4,509 were men and 1 852 women. Over 8 years of age 5 569 under 8 years 792. Only six deaths occurred in the steerage on the voyage. Of the deaths 4 were boys under 8 years and 2 girls over 8. The quantity of merchandise paying duty by weight and returned during the month by the New York Weighers was 141 631 887 pounds, viz Imports except coal and salt) 119 592 532 pounds exports 8 660 655 pounds. Coal and salt imported 13 378 690 pounds. Tea imported 3 068 541 pounds

RAILROAD NOTES

In the annual report the Massachusetts Railroad Commissioners say that on the 1st of January 1870 there were at least 100 000 tons of steel rails laid down on the railroads of this country and probably 10 000 tons of steel headed rails besides. The commissioners sent a circular containing interrogatories in regard to the use of these rails to a large number of roads throughout the country and from the replies received conclude that extremes of temperature do not injuriously affect steel rails; that their durability far exceeds that of the best iron rails no steel rail having yet been reported as worn out; that heavy grades and sharp curves do not materially affect their wear; that the rails should be carefully inspected before laying and that usually all flaws and imperfections can then be discovered and subsequent breakage in the track prevented

Says the New York *Tribune* of March 16th: "We have great pleasure in stating that at the annual meeting yesterday in Boston of the stockholders of the Union Pacific (Omaha) railroad President Ames estimates the receipts of that road for the year ensuing at $12 000 000 which he said will pay all our interest. We have heard reports that this company did not expect to pay the interest on the bonds loaned it by the Government which were it the case would give a damaging if not fatal blow to many great railroad enterprises. The Union Pacific can pay should pay and we fervently trust will pay all its liabilities. Should it fail to do so there must and will be an uprising that cannot fail to prove unpleasant to many dignitaries. The country will bear some delay in meeting the interests on the bonds loaned it by the Government but the company must ultimately pay it. Let none imagine that this is not imperative."

The New York *Times* of March 10th says: "The stockholders of the Northern Pacific Railroad held their annual meeting in this city yesterday when the following gentlemen were elected as the Board of Directors: J. Gregory Smith St Albans Vt; R. [illegible] Rice Augusta Me; Thos H Canfield Burlington Vt; Wm B Ogden Chicago Ill; J. Edgar Thomson Philadelphia Penn; George W Cass Pittsburg Penn; Benj P Cheney Boston Mass; Frederick Billings Woodstock Vt; Wm Windom Winona Minn; Samuel M Felton Philadelphia Penn; Charles B Wright Philadelphia Penn; James Stinson, Chicago Ill. The directors subsequently completed the organization of the company by electing J. Gregory Smith President; R. D. Rice Vice President; A. H. Barney Treasurer; S. Wilkeson Secretary. Arrangements were also made for the immediate and energetic prosecution of the great work. The first section to be undertaken will be from Duluth to Red River and the expectation is that that portion of the road will be constructed before the close of the present year."

Financial Review of Grant's First Year

[From the New York [illegible]]

The debt statement for the 1st of March, 1870, published to day, brings the final account of Mr. Boutwell's administration to the close of his first year and offers a good opportunity for a comparison of the debt as it was left by the last Administration with its present condition, the best means of showing how Mr Boutwell has managed the finances of the Government. On the 1st of March 1869 the principal of the debt [illegible] was $2,197 854,050; on the 1st of March, 1870, it was $2 107 939,660, which shows an increase of $[illegible] 950. This increase is occasioned by the issuing of six per cent bonds in exchange for 7 3-10 notes which is only done in [illegible] as the seven thirties were sent in for conversion prior to Sept 15 1867, and Aug. 15, 1868. All the seven thirties converted during the year were of this kind but the issue of the bonds to take their place was delayed by a question of the ownership being in dispute. These cases are technically known at the Department as "caveat" cases. The accrued interest on the coin debt March 1 1869 was $32,427,439 84, and on the 1st of March 1870 it was $38 708,342 84, an increase of $6 280 953. Of this increase, however, $6,280 047 is due to the fact that the debt statement as now published includes all the accrued interest not paid while that of March 1, 1869, only includes the actual accrued interest on each loan from the date of the last interest period up to the date of its publication, so that to make a fair comparison of these two items the amount of coupons due not presented for payment, as published in the statement of March 1, 1870, ($6 280 047) should be deducted from it, since the amount of outstanding or unpaid coupons was about the same at each period and the debt statement of March 1869 was defective in not taking account of them. If we make this deduction the increase in this item will be but $806, or the additional interest for two months on the addition to the principal. The debt bearing interest in lawful money was $71 140 000 on the 1st of March, 1869, and on the 1st of March 1870, it was $59,555,000, showing a decrease of $11,585 000—this being the amount of three per per cent certificates redeemed during the year in excess of the amount issued. On March 1 1869 the accrued interest on the lawful money debt was $[illegible] 260 and on March 1 1870, was $[illegible] a decrease of $258 760. This decrease is in the interest on the three per cent certificates which has been nearly all paid up to the 1st of January 1870 though the amount unpaid is estimated at four months. The matured debt on the 1st of March 1869 was $3,273,[illegible] 346 64 a decrease of $[illegible] 449 1[illegible]. The matured debt interest account March 1 1869 was $951 695 79 and March 1 1870 it was $624,[illegible] a decrease of $327,617 42. All of this decrease arises from the payment of old matured debt and the unpaid interest upon it. This concludes the comparison of the interest bearing debt. The United States notes outstanding March 1 1869 was $356 021 073 and on the 1st of March 1870 it was $356 122 978 66, an increase of $[illegible]. This increase is due to the fact that the Treasury has kept the circulation of United States notes at the uniform amount of $356 000 000 while the old demand notes though being gradually redeemed the amount of redemption during the year $[illegible] did not equal the amount the United States notes were increased $[illegible]. The fractional currency in circulation on March 1, 1869, was $36 51[illegible] 40, March 1 1870 it was $39 [illegible] 639 08 an increase of $2,[illegible] 168 491 [illegible]. The amount of coin certificates outstanding March 1 1869 was $25 [illegible] 560. March 1 1870 it was $44 382 840 an increase of $16,688 280. The coin in the Treasury March 1, 1869 was $98 741 260 72, and March 1 1870 it was $102 400 [illegible] an increase of $3 659 [illegible]. The currency March 1 1869 was $16 863 029 84, and March 1 1870, it was $10 280 283 68 a decrease of $6,572,743 88. The assets have been further increased by the value of the United States bonds purchased for the Sinking Fund and as Special Fund awaiting the action of Congress. These amount to $101 609 292 61 at their face value and accrued interest to date. But if we take their market value say at an average of 12 65 premium—the average rate at which the last purchases were made they would amount to $[illegible]

URSDAY MORNING, MARCH 24, 1870.

Workingmen's Opinions.

Who could have expected to find free trade the defensive in England? Yet such a enomenon is actually to be seen there, en now. And what is most significant is e fact the agitation in favor of protection oceeds mainly from the working classes. his agitation has become too powerful to be ppressed with sneers, or to be treated with sdainful neglect; and even the London *imes*; in alluding to it, says

> The Cobden Club may soon find better employ- ent for themselves than dining together at reenwich. If the signs of the times are not lusive, the battle of free trade may have to be ught over again. Associations for the restora- on of protection are actually at work, publish- g their pamphlets and enrolling their converts ke the Anti-Corn League, thirty years since. ne of these effusions seems to have been sent to r. Bright, who very naturally lost all patience t the folly of the appeal. But the matter is not o be dismissed so cavalierly. We can believe eadily enough that the protectionist tract was a mere confusion of figures, and wholly without gic and sense;' but behind all these fallacies ere is an agitation at work which will require ore than mere sarcasm to subdue. Mr. Bright hould remind himself that his best friends abroad nd his first favorite at home are sworn to pro- ection.

Isn't here a pretty state of things to be seen in a country whose theorists, miscalled "advanced thinkers," had supposed was so fully committed to free trade that the doctrine of protection would never be heard of more? Mr. Bright and the freetraders find that, just as they were sitting down in serene confidence that their work was done, they have the whole battle to fight over again. All over England the protectionist movement is making headway. Workingmen are organizing to discuss the subject, and the opinion is becoming general among them that unreciprocated free trade is injurious to the cause of labor.

To descend abruptly from great things to small, we may observe that while this movement against free trade is gathering force in England, the small Democratic politicians of Polk county, Oregon, under the enlightened leadership of Ben. Hayden, have pronounced for the abolition of all tariffs and for the raising of all revenues by direct taxation.

Good Advice but Vainly Given.

We believe that all the County Democratic Conventions held in this State, in which resolutions declaring the principles of the party have been presented and formally adopted, have declared emphatically against the validity of the Fifteenth Amendment. They pronounce it void, and thus the party sets itself, so far as it can do so by words, against its enforcement. This subject has engaged the attention of the head organ of the party, the New York *World*, and it proceeds to discourse thereupon in this style:

> The chances of successfully resisting the operation of the amendment after it is declared adopted, are very slender. *Forcible* resistance is not to be thought of. If the validity of the amendment is contested in the courts, the prospect is quite hopeless in view of this fact that when the vacancies in the Supreme Court are filled the Republicans will have seven of the nine judges. *It is better to let the miserable agitation over the negro end here, than to supply it with further aliment by a bootless contest in which we are certain to be defeated*, and which would not only give the Radicals the advantage of another triumph, but enable them to enlist all the newly made colored voters in their ranks.

Now here are words of wisdom, but the few wise ones of the Democratic party have never been able to make the party follow intelligent leadership. The *World* cries out like a Cassandra, prophesying truly to an unbelieving multitude, but can make no impression. The *Oregon Herald* of yesterday, as we observe, calls again and again on the Democracy to "carry the war into Africa;" as if during ten years past, they had not had enough of "carrying the war into Africa" to satisfy the best war-haters among them. But as they are resolved to have more of it they must take the further drubbing which the *World* predicts they will get; and the *World* for its share must take the gibes and denunciations of the party, because it tells them the truth.

The Democratic Convention.

Our special dispatches from Albany report something of a flutter among the assembled representatives of the Democratic party. But it is clear that the "bed-rockers" are to have it all their own way. The repudiation wing of the party is decidedly in the ascendant, and it would appear that the few who protest against State and national dishonor are to be ordered to back seats. The Convention is evidently disposed to put forth a platform to meet the views of the worst [illegible] of the party. By a vote of two to one it rejects a minority report against repudiation, and evinces a disposition to put through a repudiation platform straight. The action already taken will reveal to those Democrats who believe in maintaining the national credit, and national honor with it, the thoroughly bad character of those who control their party. We greatly mistake the people if they do not administer a terrible rebuke to those who have struck this blow at the welfare and honor of the country.

Editorial Notes.

The California Assembly has actually passed to engrossment the bill to assess and pay losses alleged to have been sustained by John Nugent by the failure of his *Herald* in 1856! Hereafter, if any California Democrat fails in business just let him go to the Legislature of that State and have his losses made up to him.

Southern papers are calling for a "reorganization of the Democratic party." We agree with them that this would be a very desirable thing—but on what basis is the reconstruction to be effected? What are the aims of the Democratic leaders? Where is their policy? If they have any settled ideas on such subjects they succeed in keeping them a profound secret.

Free trade doctrines don't please the Democracy everywhere. A few days ago Mr. Woodward, a Democratic representative from Pennsylvania, presented in the House petitions from 1,135 laboring men of his District, mainly Democrats, remonstrating against any change in the general tariff as suggested by the Free Trade League. Workingmen at the East, without distinction of party, comprehend this matter.

The book-makers are finding a new and extensive field on the Pacific coast. We have but just announced Mrs. Victor's *River of the West* and Mr. Gray's *History Oregon*; and now comes Oscar T. Shuck of San Francisco with a large and splendidly illustrated volume entitled *Representative Men of the Pacific*. Sketches of most of the noted men of the Pacific coast appear in this book. Oregon is very fairly represented, since we find in the volume sketches of ex-Senator Nesmith, Judge Deady, Gov. Woods, and the late Senators Delazon Smith and E. D. Baker. The book is sold only by subscription, and doubtless it will soon be advertised here.

The *Herald* rejoices boisterously because Mungen, the repudiator, has been exonerated from the charge of trafficing in cadetships. But we would remind that paper that the infamy of repudiation still clings to him, and this infamy is so great that it could scarcely have been augmented even by conviction of the lesser crime of jobbing in cadetships. And if the *Herald* wants to be referred to a genuine Democrat who goes the whole figure both in repudiation and in the cadetship business, let it take Golladay of Kentucky.

Several meetings of German citizens have been held quite recently in Chicago, with a view of forming a Colonization Society to forward emigrants to Washington Territory. The subject has been taken hold of in good earnest, and much interest in the movement has been created. Gen. Salomon, the newly appointed Governor of the Territory is at the head of it, and he is known as an active and energetic man. For several years he has been one of the most prominent German citizens of Chicago, and a Republican leader there. From the day of his appointment as Governor of Washington Territory it has been his object to bring with him to the Territory as large a number of his friends as possible, and it would seem that he is succeeding well in organizing a Society for the purpose. How long it will be until his departure for the Territory is not stated; but it is to be supposed that he will start in a few weeks. This accession of German citizens will be a great advantage to the Territory. If proper steps are taken the Chicago Colonization Society may be made the instrument in giving many useful citizens to Oregon also. Our Board of Immigration might communicate with it to great advantage.

OREGON.

Mr. P. Chappel, who was crushed by a rolling log, on the 9th inst., died last Tuesday at his residence near Salem.

The Salem Dramatic Troupe has gone to Albany to play farces in competition with the Democratic State Convention.

The Benton county Republican delegates to the State Convention, were instructed to vote for Judge J. Kelsay, for Judge of the Second Judicial District.

The Oswego delegates to the Republican Convention of Clackamas county, are Messrs. F. Ford, O. W. Bryant, Jesse Bullock, W. S. Failing and G. W. Walling.

We learn that a number of miners who started about ten days ago for the Willow Creek mines, had to turn back on the Blue mountains on account of the great depth of snow.

The snow storm of last week was particularly severe in some portions of Eastern Oregon. One man that we hear of, in Union county, lost ten or twelve head of cows. The snow fell to the depth of twelve inches.

The *Statesman* says two of the recent graduating class of one hundred and thirty-seven, at Bellevue Medical College, New York, are Oregon boys—A. C. Kinney, son of R. C. Kinney, of Salem, and S. B. Richardson, of Yamhill.

The McMinnville *Blade* says that when Gaston was at Portland hunting Democratic "imports" for Yamhill county, and representing himself as a brother of M. S. Hart, he wore Hart's cloak in a double sense—he had on Hart's overcoat, borrowed for the occasion.

The intended organization of a new Odd Fellows' Lodge at McMinnville on the 21st, was defeated by the absence of Grand Master Jno. M. Bacon, who was detained at home by serious illness in his family. The organization was expected to take place on the 23d.

Mr. J. W. Carter, who was the lessee and manager of the Oro Fino Theatre in this city, last fall, has lately gone up the Columbia river, and has been giving theatrical shows at various places. Mrs. Carter, J. B. Robinson and others are with him, associated under the name of the "Carter Troupe."

The Benton county Republican ticket in full is as follows: For State Senator—Hon. A. M. Witham; Representatives—W. J. Dunn, W. J. Kelly; County Judge—A. G. Mulkey; Clerk—B. W. Wilson; Sheriff—Minor Swick; Treasurer—H. Flickinger; Commissioners—Jas. Gingles, David King; Assessor—J. M. Lafferty; Sup't Common Schools—E. Woodward; Surveyor—George Mercer; Coroner—Richard Graham.

We have received from various sources, the full proceedings of Republican precinct conventions, accompanied with sets of resolutions (generally excellent ones), with a request to publish. We have yielded in one or two cases to the request to publish such proceedings in our own county. We did not do it in the case of our city precincts, partly because we did not have the room to spare and partly because the room we have can be occupied, we think, to better purposes. We must decline to publish these precinct proceedings hereafter; and we shall trust that none of our friends will take offence thereat.

Republican Primary Meetings.

POWELL'S VALLEY PRECINCT.

On Monday, March 21st, 1870, the Republicans of Powell's Valley precinct met at the hour of 1 o'clock P. M., at their usual place of voting, and organized by electing J. W. Roork, Chairman, and T. K. Williams Secretary.

Dr. J. P. Powell, John Lake and John W. Wilson were appointed a committee to draft resolutions expressive of the sense of the meeting, which committee reported the following in due time, which were adopted:

WHEREAS, It has become the duty of the undersigned committee to draft resolutions expressive of the sense of this meeting, we beg leave to submit the following:

Resolved, That we are more than ever determined to come up to the support of the Union Republican party in the approaching State election.

Resolved, That we have reason to be proud of our Senators in Congress, Messrs. Williams and Corbett, and that we especially feel grateful for the untiring perseverance of the former in securing valuable grants of land for the purpose of aiding in the construction of railroads in our State; and appropriations for the construction of public buildings long and sadly needed for the use Government officers and United States Courts in Oregon, which are not only calculated to supply this great need but will prove to be creditable ornaments to the cities of Portland, Dalles and Astoria, where the same are in course of erection.

Resolved, That the WEEKLY OREGONIAN be requested to publish these resolutions, and the proceedings of this meeting.

The ballot for delegate to represent the precinct in the County Convention was then taken, resulting in the election of T. K. Williams.

No further business appearing the meeting adjourned *sine die*.

J. W. ROORK, Chairman.
T. K. WILLIAMS, Secretary.

SANDY PRECINCT.

We have no full report of the proceedings from Sandy precinct, but learn that Hiram Barker and Phelix Hickman were chosen delegates to the County Convention.

WILLAMETTE PRECINCT.

Pursuant to the call of the County Central Committee, the Union Republican voters of Willamette precinct met at the usual place of voting, and organized by the election of S. B. Barr, Chairman, and John Powell, Secretary.

On motion, John Powell and David Ulery were elected delegates to the County Convention to be held in Portland on Saturday, March 26th, 1870.

On motion, the meeting then adjourned.

S. B. BARR, Chairman.
JOHN POWELL, Secretary.

FULTON PRECINCT.

The delegates chosen are Messrs. Wm. Whitehead, J. S. Dickinson and James Terwilliger.

LAST NIGHT'S DISPATCHES.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO MARCH 23.

Washington News in General.

CHICAGO, March 23.—The opponents of the polygamy bill denounce the bill as a war measure. The President is said to doubt the propriety of stationing troops throughout the Southern States.

The President to-day told certain Southerners that it was his intention, as soon as Texas was admitted to send a special message to Congress, recommending universal amnesty by the removal of all political disabilities imposed by the Fifteenth Amendment.

A *Tribune* dispatch says there is getting to be a good deal of feeling about the San Domingo treaty. The discussion to-morrow, in secret session of the Senate, will be warm. The President has twice visited the Capitol and talked with Senators about its ratification. Yesterday he invited a number to call on him at the White House. A half dozen waited on him last evening and several went this morning, and quite a party is there to-night. He presses its ratification vigorously, and has, undoubtedly, won several gentlemen to his side. In some quarters there is severe condemnation of what is called his lobbying. It is not likely that the consideration of the treaty will be finished to-morrow. If the vote is reached, it will probably be defeated. Some Senators want to postpone action till commissioners can be sent down to make investigation. The time expires next week, Thursday. The report of the Foreign Committee against the San Domingo treaty is said to have been unanimous.

WASHINGTON, March 23.—A caucus of Republican Senators was held this morning in reference to the Secretaryship of the Senate. It seems efforts have been made to effect the removal of the present incumbent, Geo. C. Gorham. This movement does not, however, involve any question whatever connected with his official duty. The committee was appointed to examine into the subject and report at an adjourned meeting.

New York News.

NEW YORK, March 22.—A fire this morning, at No. 63 Crosby street, destroyed property valued fully at $200,000.

Affairs in the Thirty-second Revenue District are unchanged. There is no clue as to Bailey's whereabouts.

Positive charges have been made by the *Sun* of corruption in the Excise Board in the misappropriation of funds, and even of theft. This has given rise to-day to rumors of the grossest corruption in various ways in the Board of Commissioners.

Manniere and John Savage have issued the addresses of the Council to the Fenian Brotherhood respecting the organization financially, and declaring their opposition to any attack of British Canada, hoping for the day when the leaders of the Home organization will be prepared to unfurl their banner on Irish soil.

The frigate *Colorado* sails for China to-morrow.

Meehan, editor of the *Irish American*, is pronounced to be out of danger.

NEW YORK, March 23.—Hon. Mapleton Chance of Ohio, has been appointed United States Consul at Nassau, and will leave this port for his Consulate in the steamer *Missouri* to-morrow.

Two turreted iron-clads will probably sail to-day for Hampton Roads. The *Frolic*, the flag ship of Port Admiral Stringham accompanies them as convoy, and having performed that duty will return to her station in this port.

The Conference of the M. E. Church commences its session at St. Paul's Church in this city to-day. The Conference numbers two hundred members. The anniversary of the Bible and Tract Societies and Sunday School Union will be celebrated this evening.

Matters in Richmond.

RICHMOND, March 22.—All is quiet to-day. Cahoon's motion for an injunction will be heard in the United States District Court to-morrow, before Judge Underwood.

The funeral, to-day, of Bush, special policeman, killed on Sunday, was largely attended. The Mayor and Common Council were in the procession.

An Improbable Story.

NEW YORK, March 23.—The *Sun* says a proposition has been made to Senators opposed to be ratifying the San Domingo treaty that if opposition withdrawn the Executive will be in favor of recognizing the belligerency of the Cubans.

A Military Convention Called.

PHILADELPHIA, March 23.—Gens. Sheridan, Pleasanton, Custar, Davies, Torbett and other cavalry leaders are consulting plans for organizing the cavalry service. All cavalry officers and privates are invited to meet in a Convention called for the 8th of April, in this city.

South American News.

NEW YORK, March 23.—By the arrival of the steamer *Merimac* from Rio, we have some information about the dreadful condition of Paraguay. Towns are depopulated, and the people are nearly starved. There are thousands living on roots and whatever fruit they could find. Twenty thousand widows are hanging about Asuncion vainly striving to procure passage to Buenos Ayres or Montiviedo. Deserters are prowling about the country robbing and murdering. Lopez is safe in the mountains. He is succored by the Indians, but the Brazilians held possession of the whole country with this exception.

Discovery of a New Coal Mine.

LEAVENWORTH, Kansas, March 23.—Leavenworth Coal Co. reached by a short shaft, last night, an inexhaustible bed, not excelled in quality by any west of Pittsburg. There is great satisfaction among the citizens and the manufacturing interests thereat.

BY THE CABLES.

TOURS, March 22.—The High Court of Justice opened its session this afternoon. A slight change was made in the arrangement of the court room, leaving very limited space for spectators. Millière was brought in between two gend'armes. He gave his testimony with firmness, but made no attempt at display. He said letters from Prince Bonaparte to Rochefort was not a provocation but an insult. He asked why he wore arms, replied that he lived a distance outside the city and in going home at night he was obliged to carry arms for self-protection. He incidentally blamed the government for the delay in the arrest of the Prince after the shooting, whereupon he was reprimanded by the President of the court. The Prince rose excitedly and declared that Millier and Grousset had both sworn that they would yet shoot him. This, the witness positively denied, and the audience seemed inclined to hiss the Prince. The Procureur General insisted that the witness should be removed to prison. The lawyers for the prosecution demanded that he remain and give the remainder of his testimony. The court decided that the witness should remain, and he concluded his testimony. Several servants of the accused were placed on the stand and some of his personal friends were examined. The latter damaged the defense by displaying too much zeal. Paul De Cassagnac was next examined. He was insulting towards the lawyers for the prosecution. La Craze, who testified in favor of the accused, was at one point called to question by the court because he showed too much warmth. All the witnesses for the defense testified that they noticed a contusion on Bonaparte's cheeks after the affair; but the physician who was called in at the time to examine the Prince's face was placed on the stand, and he swore that he saw no signs of contusion. This was contradicted by the other witnesses, but he repeated his statement. The audience was much excited by the contradiction. The defence attempted to prove that the Prince did not shoot until Fonrville had drawn his pistol; also that a plot had been formed against the life of the Prince before the affair of the Rue d'Auteille; but the evidence failed to sustain either allegation. It is expected Rochefort will be examined to-morrow.

STUTTGART, March 22.—The Ministers have tendered their resignations because of the King's resistance to the proposed reduction of the army. The king deliberates before accepting their resignations.

MADRID, March 22.—The resignation of Topete as Minister of Marine, has been accepted. The *Iberia* has a dispatch from Malaga which asserts that John Bright will undertake to secure the restoration of Gibraltar to Spain.

PARIS, March 22.—The workmen of La Cressautte are again on a strike. No disorder has yet occurred.

The *Journal Official* contains a letter from the Emperor to Prime Minister Ollivier. He says it would be expedient in the present condition of affairs to adopt all reforms which will restore constitutional government to France in order to put an end to that immediate desire for a change which possesses certain spirits who disturb the public mind by their belief in the instability of the present regime. Among the reforms which the Emperor places in the first rank are those which touch the Constitution and perogatives of State. He urges Ollivier to concert with his colleagues for the submission to him, the Emperor, of a project for a Senatus Consultum, which will fix invariably the fundamental provisions growing out of the plebiscitum of 1852, to divide the legislative power between the two Chambers, and restore to the nation a part of the representative power which had heretofore been delegated to it.

LISBON, March 23.—A commercial panic is prevailing in Buenos Ayres. Several failures have occurred and it is supposed others will follow.

LONDON, March 23.—In the House of Lords last evening the mutiny bill passed through committee and the consolidated fund bill was read second time.

In the House of Commons Mr. Gladstone denied amid merriment the reports recently published in the Spanish papers and elsewhere, that Mr. Bright had offered to retrocede the Rock of Gibraltar to Spain. The bill for the enforcement of the laws in Ireland was then taken up. The House divided and the bill passed—125 against 31.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, March 23.—Wm. Ladd, a saloon keeper, was found dead in bed this afternoon. Cause of death, apoplexy.

The Chamber of Commerce held a meeting at 2 P. M., President Otis in the chair. The subjects which were announced for the consideration of the Chamber were, bills before the Legislature relative to the Chinese basin reservations, bills for the issuance of bonds to bring water to city; matter of Australian steamers, and a further report from the committee on wharfage and dockage. A preamble and resolutions asking Congress to grant a liberal subsidy for the support and establishment of a line of steamers between this port and Australia were adopted. The committee on wharfage and dockage reported progress. The Board will act in unison with the supervisors on the water question. No definite action taken in the matter of the China basin.

THE DEMOCRATIC STATE CONVEPTION.

[BY SPECIAL TELEGRAPH TO THE OREGONIAN.]

ORGANIZATION OF THE CONVENTION—COMMITTEE ON RESOLUTIONS—GROVER'S OPPONENTS TRY THE TWO-THIRDS RULE DODGE.

ALBANY, March 23.

The permanent officers of the Democratic Convention are: President, Geo. L. Curry, of Clackamas; Secretary, W. E. Howell, of Clackamas; Assistant Secretary, A. W. Stanard, of Linn.

The Committee on platform will report at seven o'clock this evening. The committee consists of one from each county, as follows: Miller, of Marion; McArthur, of Baker; Hunter, of Union; Moore, of Umatilla; Miller, of Grant; Gates, of Wasco; Thayer, of Multnomah; Bennett, of Columbia; Adair, of Clatsop; Hedges, of Clackamas; Swick, of Washington; Jackson, of Yamhill; Holmes, of Polk; Smith, of Benton; Crooks, of Linn; Cochran, of Lane; Baker, of Douglas; Thompson, of Coos; Johnson of Curry; Fay, of Jackson.

Grover's friends will oppose the adoption of the two-thirds rule; his opponents will seek to put it in operation.

Later—The Platform for Repudiation.

ALBANY, March 23.—9 P. M.

The Eighth Article of the Platform reported by eighteen out of the twenty committeemen, declares that the bonded debt of the United States ought to be regarded as cancelled. Johnson and Cochrane made a minority report against the repudiation article. The minority report was tabled—72 to 38. The Union county "equitable adjustment" resolution was offered as a substitute for said Eighth Article, but it was tabled by a vote of 93 to 62. The platform, as it will likely stand when adopted, will be repudiation, anti-Chinese, anti-Negro and anti-Indian, and will propose an amendment to the Constitution of the United States, rescinding the 14th and 15th amendments.

Humason and Hayden are discussing the Eighth Article—the former against, and the latter for.

PERSONAL AND POLITICAL.

Jeff Davis, who reveled as President of the Confederacy, is succeeded by a colored Revel—poor pun, but fact.

Not since 1854 has New Hampshire had a Democratic Governor, and he (Nat. Baker) is now a good Iowa Republican.

General R. E. Lee says he has never read a history of the late civil war. We should hardly think he would find that style of literature very amusing.

In a sermon preached the other evening, Rev. Mr. Hepworth, of New York, said his motto was, "The bottom dollar for public schools not a cent for sectarian ones."

The Missouri State Senate has, by a vote of 22 to 66, adopted a Constitutional amendment prohibiting any State, county or local authority from appropriating public money for any sectarian school.

IDAHO.

A new hall, built by the Good Templars at Boise City, will be dedicated April 13th.

The Republican Territorial Convention will be held at Boise City on the 12th day of April.

The Democratic Central Committee for the Territory, has fixed the 2d day of May as the time for holding the next Democratic Territorial Convention, at Boise city.

If not convenient to pay cash, you can procure a GROVER & BAKER SEWING MACHINE on such easy monthly payments, that there is no excuse for being without one. WM. CORMIER & CO., Agents.

RAILROAD MATTERS are very likely to be lively this spring. The East Side Company will engage a large force of men to complete their road to Albany, and the West Side Company will, very probably, build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville. Kohn & Fishel are keeping up with railroad times. Their stock of spring goods coming across the continent by rail will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals. They are manufacturing the neatest Boys' Suits and always have on hand a large stock of the same which are offered at lowest figures.

DIED.

In Oregon City, March 23, 1870, Miss Lizzie F. Daly, aged 21 years, 10 months and 8 days.

The funeral services will take place at the Episcopal church in Oregon City, on Friday at 10 o'clock A. M. Friends of the deceased are invited to attend.

In North Fork Precinct, Yamhill county, March 15, 1870, Verlinda Margaret Hutt, aged 11 years, 2 months and 5 days.

At her residence in Yamhill county, Oregon, March 19, 1870, Mrs. Nancy L., consort of R. R. Laughlin, aged 55 years, 9 months and 1 day.

900 acre tract for sale 15 miles northwest of Portland; over 600 acres in good cultivation, all under fence; three good frame houses, three large frame barns and other out buildings. The above parcel of land is located in one of the best neighborhoods in the State; handy to church and schools, is well calculated for three or more fine farms; an abundance of fruit of all kinds on each place; plenty of good running water and a fine body of timber. Price, $12,600 for all. Terms easy. Apply to Stitzel & Upton, corner Front and Washington streets.

CLACKAMAS COUNTY.—260 acre tract, 10 miles from Oregon City, on the Molalla Bottom. Right on the line of the Oregon Central Railroad, one of the best farms in Oregon; 120 acres of rich bottom land in cultivation, a fine frame house, two good frame barns; nearly all under fence; an orchard of 2,000—choice varieties—fruit trees; plenty of running water on the place and the best of timber. The above farm as for quality of soil is second to none in the State. 75 to 100 bushels of oats per acre being the average yield, and will produce 60 bushels of wheat to the acre; the improvements are of the very best character. The place is now offered for the first time at a figure much less than what the improvements cost. Price, $7,500. Apply to Stitzel & Upton, corner Front and Washington streets.

Parties desiring to look at farming lands or city property will be conveyed to the premises free of charge.

ORDINANCES

Ordinance for improvement of public property between the centres of East and West Park and Salmon and Mill streets. Passed.

MISCELLANEOUS

Resolution from Committee on Streets and Public Property, directing notice for proposed grades on various public streets, adopted.

Resolution from same committee, directing survey of Salmon street, adopted.

The following was adopted:

[illegible] That the Committee on Fire and [illegible] and the Chief Engineer be, and are hereby directed to report to the Common Council a [illegible] plan or plans for an engine house for Co No. [illegible]

On motion the Council adjourned.

SERIOUS ACCIDENT IN EAST PORTLAND.—On [illegible] Mr. and Mrs. Charles Jell, an aged couple living on a farm about midway between Milwaukie and Oregon City, came to this city with their own conveyance, via East Portland, to transact some business and purchase some utensils needed on the farm. The business [illegible], and at about ten o'clock yesterday they left to return home. They crossed the ferry boat, and were proceeding on their way when they met an ox-team upon the high bridge at East Portland, leading southwardly from the ferry [illegible] Mr. Jell's team became unmanageable, and [illegible] out of the wagon to take the [illegible] by the bridle. Before he could quiet [illegible] the wagon was backed partly [illegible] and as the hindmost [illegible] the coupling broke, which let [illegible] of the wagon, together with the body, [illegible] Mrs. Jell, fall some considerable distance. The lady was found to be badly injured [illegible] cared for immediately, [illegible] was yet alive. This will [illegible] to the family of children. [illegible] Mrs. Jell died from the effects of the [illegible] about a quarter past 4 [illegible]

[illegible] time about last Christmas [illegible] 133 First Street, trusted the [illegible] of his safe to—Mr. Samuel Oliver, [illegible] on a business trip to San [illegible]. After his return Mr. Oliver, it is [illegible] visited the store, until one night [illegible] the safe opened, and [illegible] amounting to about $1,600 in money [illegible]. Since then, we [illegible] Oliver [illegible] the place a wide [illegible] together with the facts that he had [illegible] of the safe, and that the safe presented no appearance of having been opened by [illegible] who [illegible] the combination, and other circumstances not necessary [illegible] at this time, caused a deep suspicion to [illegible] him, and he has been very closely guarded by the police until yesterday, when he was arrested. The case was brought before Justice Anderson [illegible] morning, but was continued on [illegible].

[illegible]—No person nor party to take [illegible] Morrison street, corner of Front, [illegible] Taylor.

[illegible] of this city present a very [illegible] just now. Reason: Street Com[illegible]

[illegible] of Main [illegible] through the [illegible] surveyed yesterday.

[illegible] on her arrival last evening [illegible] of ash wood.

[illegible] Portland was on board ship, [illegible] to leave for this place, when the [illegible] from San Francisco.

[illegible] applicants at the Labor Ex[illegible]

[illegible] Carruthers' Addition, sold at auction [illegible] yesterday for $575.

[illegible] It is nothing at all unusual—[illegible] a new thing at the establishment of [illegible] Northrup & Co of this city. The [illegible] their show-window, which is con[illegible], but that isn't what we set out [illegible] papers have for a long time [illegible] device for fastening windows [illegible] have it. The little article is a [illegible] for everything else that was [illegible] for the purpose, and we predict [illegible] generally adopted. It can be [illegible], as well as new, is reliable, [illegible] on the top or bottom [illegible] opened to the merest trifle [illegible] and comfort, and is yet se[illegible] from being moved either up or down by an intruder or burglar.

[illegible]—The Secretary of the Interior has made preparation to take the enumeration of the census under the law of 1850. Gen. [illegible] appointed Superintendent, [illegible] blanks, and the way [illegible] it is more than probable [illegible] work of General Garfield's Committee [illegible] By the statute of 1850, [illegible] under the supervision of the [illegible] District Marshals, who have the [illegible] of the enumerators in the several [illegible] of their Districts. Marshal [illegible] of this District, received all the necessary [illegible] and instructions for the work, which will [illegible] in about two months.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—At a [illegible] Young Men's Christian Association [illegible] in this city Monday evening, the 21st [illegible] following named officers were elected [illegible] year, viz.: President, R. THANKS.—In addition to the file of valuable papers left for us by the messenger of Wells Fargo & Co, per *Moses Taylor*, we are thankful to Mc Cormick of the Franklin Book Store for several of the most popular weeklies of New York—Harpers, Frank Leslie's, Waverly, &c.

NO BOAT.—There will be no boat above the falls for Salem on Friday. But one will depart on Saturday. This change is made in consequence of the *Fannie* lying over one day at Albany to accommodate the delegates to the Democratic State Convention.

NEW BOOKS.—The following new books have just been added to the Portland Library: The Holy Grail and other poems; The Odes and Epodes of Horace, by Lord Lytton; Oregon and California, by Thornton; General Laws of Oregon, &c.

ARRESTED.—A man named Peter Hasslin was arrested yesterday on a charge of obtaining $4 50 of Mr. Zahnser under false pretences. He will have his examination to-day before Justice Anderson.

WILL PROTEST.—Judge W. W. Page yesterday informed us that the Lownsdale heirs have decided to contest to the extreme of their powers, the proposed opening of East and West Park streets.

DISCHARGED.—The man who so cruelly beraled a Celestial and who was put under bonds of $50 for his trial was yesterday acquitted by a jury upon investigation before Justice Anderson.

DISMISSED.—For want of evidence in the case of the State of Oregon vs. Charles Lewis, prisoner was discharged and case dismissed before Justice Anderson yesterday.

SUN SHINE.—The sun shone numerously yesterday. From two o'clock till five nary drop of rain fell, which gave the public a rare chance to attend the plaza concert.

LATE DATES.—We have Philadelphia and Chicago papers of March 12th. Only ten days, by rail and steamer from their respective offices.

PROBABLY SAILED.—It was yesterday thought that the *Ajax* would by this time have been enabled to proceed upon her voyage.

REPAIRED.—The Nicolson pavement, at the intersection of Morrison and Front streets, was repaired yesterday.

The Demoralized Democracy and the Prospect of Parties

[From the New York Herald March 8.]

Only the other day a future full of power and promise seemed possible for the Democratic party. Its success had spread from the city over the whole State, and as it was advised with no small sagacity, and had a general harmony of purpose, it appeared not rash to forecast its possible triumph in the next contest for the Presidency. But what a bubble all that promise was! What has become of the hope that the Democracy might once more act on the nation as a great, united, harmonious, honest, liberal party? As the hope was built on the appearance of the party presented in this State what is left even of it here? Only four or five snarling factions. We have the "ring" or recognized Tammany leaders, the silk stocking would be leaders under the general direction of Mr Sammy Tilden, "the boys"—that is, the Jimmy O'Brien and Mike Norton party, the union Democratic organization and the country Democracy. The countrymen know and care all about the jobs in the rural and frontier districts. Canal jobs, for instance, are their specialty. Only leave them the manipulation of all the little bits of profit and plunder to be made on the canals, and there will be harmony so far as relates to them, for they relinquish every opinion with regard to the city. But with the city factions it is quite another story. They all want everything, and the simple reason of this is be[illegible] not one of them sees anything nobler or better in success than that it will give the spoils to the winner. There is no pure motive, no exalted purpose, no national spirit, and, therefore, no great mind, no organizing, conquering brain, for great intellect is not produced in a party whose struggles are always the same mean, mercenary scramble.

Mr Sammy Tilden, it is true, in declaring to the contrary, calls our attention to his own elegance, but, alas! for Sammy's argument it has been known that men have worn silk stockings who yet had very empty heads. It is the same with his reference to the "liberality" of the august Belmont. Something else is necessary to consolidate a great people around a party platform besides tossing cash to the groundlings, though one can hardly expect men of Sammy's calibre to understand this. We even think that Sammy ought not to drag his "liberal" Democrat of the past into the arena again, for we do not doubt that our former Minister to the Hague would now distinctly concede that "shent per shent" has fairly failed in American politics. At a time when the country is standing in the very atmosphere of heroic achievements, when the women still wear crape for the hundreds of thousands of gallant fellows who died for the flag, when the people have freely made illimitable sacrifices in their persons, in their comforts, in their very liberties—all to secure the supremacy of an idea—at such a time it seems to us a little less than decent for a party to come forward with a financier as its head man and to announce that this gentleman is ready to make the most liberal terms. Cannot they refer us to any one but their banker? Before a people pulsating with a reinvigorating sentiment of nationality it is scarcely handsome to present even the silk stockings of Sammy Tilden as the finest things extant. Yet what else does the Democracy proffer? Is it the noble disdain of law, order and honesty that characterizes "the boys"—that young Democracy which is sowing its political wild oats in the city by breaking the windows of the temple of Justice, and presenting the statue of the poor old goddess standing on her head. Alas for the Democracy! Is this really all there is of it in the country?

There were weak points in the Republican party. It presented some signs of decay. It was the instrument through which the nation asserted its purposes in the recent great contest, but its vitality seemed eaten out by the corrupt traders who had abused it to their selfish designs. It is still, however, most in sympathy with the popular heart. It has the advantage of appearing to the country in the person of a man nobly identified with the greatest phase of the nation's existence—a soldier, a hero, a patriot, simple minded, pure, without other ambition than to serve the country well. This is better than for a party to appear only in the person of its financial man. Grant does not dazzle the admiring eye with the brilliancy of his statecraft, but that is not what the American people want. Who is it that is carrying the nation onward in its straight course of peace and prosperity? Who directs the policy that puts money in the people's pockets? Under whose government is gold coming to par and the debt growing perceptibly smaller month by month? Such points as these are the ones that are vital to this nation, and they indicate that the truest glory and best safety of the republic are in the continued supremacy of the party that governs with men like Grant.

A PUBLIC BENEFACTOR.—Jno. A. Carr started the Gold Room with greenbacks at 80 cents. Good management has appreciated them to 95 cents. A rushing business is still done. Supply of gold inexhaustible. Hurry up the Legal Tenders. Hours of business from 6 A. M. to 12 P. M.

THE PEOPLE SAY

That PRATT'S ABOLITION OIL is the best remedy in the world for the complete and speedy cure of Rheumatism, Neuralgia, Lame Back, Gout, Chilblains, Sprains, Bruises, Stiff and Swollen Joints, Contracted Cords and Muscles, Pains in the Breast and Sides, Nervous Headache, Toothache, Earache, Sore Throat, Colic, Cramps, Cholera Morbus, Diarrhœa, and all internal and external aches and pains. Put up in two sizes—Price 50 cents and $1 00. Circulars with full directions around the bottles. For sale by all druggists.

THE BLOOD AND LIVER

Life and health depend on their condition. PRATT'S NEW LIFE purifies the blood, heals old sores, expels from the system all scrofulous humors, cutaneous eruption and impure matter. It stimulates the Liver and Kidneys to healthy action, regulates the Bowels, cures Piles and Dyspepsia. Persons subject to Billious attacks and those suffering from the effects of Fever and Ague, or any injudicious use of Quinine and Mercury will find PRATT'S NEW LIFE invaluable. Price $1 00.

Irritable Invalids.

Indigestion not only affects the physical health but the dispositions and tempers of its victims. The dyspeptic becomes, too, in a measure demoralized by his sufferings. He is subject to fits of irritation, sullenness or despair, as the case may be. A preternatural sensitiveness which he cannot control leads him to misconstrue the words and acts of those around him, and his intercourse even with those nearest and dearest to him is not unfrequently marked by exhibitions of testiness foreign to his real nature. These are the mental phenomena of the disease, for which the invalid cannot be justly held responsible, but they occasion much household discomfort. It is to the interest of the home circle, it is essential to family harmony as well as to the rescue of the principal sufferer from a state not far removed from incipient insanity, that these symptoms of mental disturbance be promptly removed. This can only be done by removing their physical cause, a derangement of the functions of the stomach and its allied viscera, the liver and the bowels. Upon these three important organs Hostetter's Stomach Bitters act simultaneously, producing a thorough and salutary change in their condition. The vegetable ingredients of which the preparation is composed are of a renovating, regulating and alterative character and the stimulant which lends activity to their remedial virtues is the purest and best that can be extracted from the most wholesome of all cereals, viz: sound rye. No dyspeptic can take this genial restorative for a single week without experiencing a notable improvement in his general health. Not only will his bodily sufferings abate from day to day but his mind will recover from its restlessness and irritability, and this happy change will manifest itself in his demeanor and to all around him.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and place on their guard against this practice.

Retrenchment!

THE NUMBER OF GROCERY STORES IN PORTLAND is about sixty, with an average of three men to each and about twenty of them run delivery wagons, making a total of one hundred and eighty men and twenty teams constantly employed to wait upon eight thousand people. Estimate the labor per man at three dollars per day in one year it would amount to $197,100 and the rents, keeping of horses, taxes, licenses, etc., at three dollars per day for each store and you have $65,700 more, making a total of $262,800 annually, for expenses alone. This is why the grocerymen must make their twenty per cent or shut up shop.

Now we can supply the city with groceries with a force of twenty men and four delivery wagons at an expense not exceeding $25,000, thereby saving $237,800 in expenses alone, which would enable us to sell goods at five per cent profit instead of twenty and make money. $237,800 divided among 8,000 people, would give $32 85 to every man, woman and child, which they could actually save by centralizing on

been away from her three years—about that—
nd I returned to find my Mary true;
l though I'd question her, I did not doubt that
t was unnecessary so to do.

'was by the chimney-corner we were sitting,
Mary," said I, "have you been always true?"
rankly," says she,—just pausing in her knitting,—
"I *don't* think I've unfaithful been to you;
t for the three years past I'll tell you what
e done; then say if I've been true or not.

When first you left, my grief was uncontrollable,
Alone I mourned my miserable lot,
nd all who saw me thought me inconsolable,
Till Captain Clifford came from Aldershott;
flirt with him amused me while 'twas new;
on't count *that* unfaithfulness. Do you?

The next—oh! let me see—was Frankie Phipps,
I met him at my uncle's, Christmas-tide;
nd 'neath the mistletoe, where lips meet lips,
He gave me his first kiss"—and here she sighed;
We stayed six weeks at uncle's—how time flew!
don't count that unfaithfulness. Do you?

Lord Cecil Fossmote, only twenty-one,
Lent me his horse. Oh, how we rode and raced!

And often was his arm about my waist

Would count *that* unfaithfulness! Do you?

Do you know Reggy Vere? Ah, how he sings!
We met 'twas at a picnic. Ah, such weather!
le gave me, look, the first of these two rings,
When we were lost in Cliefden woods together,
h, what a happy time we spent, we two!
don't count *that* unfaithfulness to you.

I've yet another ring from him. D'you see
The plain gold circlet that is shining here?"
took her hand; "Oh, Mary! Can it be
That you ——." Quoth she, "That I am Mrs. Vere.
don't count *that* unfaithfulness. Do you?"
"No," I replied, "*for I am married, too.*"

Mr. Seward on Mexico.

HIS VIEWS ON ANNEXATION—THE CONDITION OF AFFAIRS IN THE COUNTRY, ETC.

Of his personal experience in travel, Mr. Seward speaks with the greatest vivacity and interest. He believes that when the resources of Alaska are developed, its productions will be found of great value; and he evidently feels proud of the negotiations which he initiated and consummated for the annexation of that domain.

"But," said he, "I am not anxious to see the area of freedom as they call it, extended with too great rapidity. There ought to be some preparation required from a country or people desiring to join their fortunes with ours." [illegible]

"What about the annexation of Mexico?" asked one of his callers.

"Well, sir," replied he, "you will never have it, at least with the consent of the Mexicans, as long as you show you desire it. It is very much in this case as it is when a man is courting a woman. If he shows an undue anxiety and haste to get her, the chances are against his getting her at all. If he shows no particular anxiety about it the probability is that he will get her very easily. Now," continued he, "when George Francis Train proposed to go to British Columbia to preach annexation, the people there objected very strenuously to his coming, and opposed him with great bitterness. But, when I went there—I, who had been so much identified with projects of annexation—though at first they seemed a little afraid of me, yet, when I assured them that I had no design or thought of taking any step or making any attempt toward the annexation of their country, they became very friendly, invited me to a banquet as I returned from Alaska, and now it seems, they are getting up petitions addressed to our Congress in favor of annexation. So in regard to Mexico. The people there are very much opposed to this country, because we have so many noisy men, who are always threatening them with annexation—who tell them that neither they nor their country are fit for anything but to be governed by us. Then, again, the American people are represented by a class of men who are constantly trying to get money out of their Treasury on the pretext of one claim or another, and who are always menacing them with the vengeance of our Government. Of course, it is not to be wondered at, if, under these circumstances, the Mexicans are not very greatly attracted toward our people and Government. But, if any American should go there with honest purposes, he will come away [illegible]. They received me with remarkable friendliness and liberality. You have, doubtless, heard the details of the welcome I received. When I arrived at Manzanillo on the Pacific coast, I had fifty dollars in my pocket, as we had been advised not to carry money for fear of robbers. But I found an escort there waiting for me, to conduct me to the City of Mexico, and as we passed through the country from point to point, we were taken to palaces or the public buildings and entertained at the expense of the State. And when I got to Vera Cruz, on my departure from Mexico, it appeared that I had been unable to spend anything whatever, for I found I had the whole of the fifty dollars with which I originally landed on Mexican soil." [illegible]

"What is your opinion, Mr. Seward, of the [illegible] of insurrections, outbreaks in Mexico, are they serious?"

"[illegible] They have not drawn any considerable number of people into them, but are merely local irruptions here and there, the remnants of fifty years of revolution. As for the murders and robberies of which we hear so much, they are no [illegible] they are here. When I got to Vera Cruz [illegible] a copy of the New York [illegible], I saw the long list of robberies, murders and outrages committed in this country, [illegible] it seemed to me, worse than anything known in Mexico.

"The [illegible] of Mexico are their political [illegible], the marauders are their [illegible], and the insurrections are the work of a few men accustomed to fighting. President Juarez is doing a great deal to pacify the country, and is managing things well. Reconstruction has made better progress there since the overthrow of foreign domination, four years ago, than it has made in this country since the overthrow of the rebellion. There is much ground to hope for Mexico, and, under the present administration, there is a prospect of a better condition of things than Mexico has ever yet enjoyed."—*Cincinnati Commercial*, Feb. 26th.

FURTHER ACCOUNT OF THE DISASTER NEAR YOKOHAMA, JAPAN.

New York, March 10.—The *Tribune* publishes Yokohama correspondence on the *Oneida* disaster. The writer says the whistle of the *Oneida* was blown and three guns fired, still the Captain of the *Bombay* declares he neither saw nor heard a signal. Yet the Steward of the *Bombay*, on arrival at Yokohama, asserted that the *Oneida* had been run into and cut to the water's edge. But the worst of the story is the evidence of a British lieutenant, that Captain Eyre told him he had "cut the whole quarter off a damned Yankee frigate, and served her bloody well right." Capt. Eyre's own evidence is to the effect that the collision was too slight to be much regarded, and his pilot told him a spit of land was very near and there was no danger, and he was a good fifteen minutes looking after the ill-fated ship.

The statements of the Captain's Clerk, Crowninshield, and Master Yates, agree that the *Oneida's* whistle was blown fiercely, and that if the *Bombay* had stopped, or sent boats, nearly every man would have been saved. Yates says as the ship was fast sinking, Capt. Williams, who was on the "brig," was asked to get on board but refused, saying, "No, I shall stay on my ship if she goes down." Lieut. Commander Muldaur walked up and said, "Sir, the ship is going down." "I know it," said the Captain, "but what can I do? I have repeatedly asked for boats, but could not get them." At this moment the ship settled. Her smoke stack came over and forced the cutters from the ship's side, and she went down stern first. I hauled the Captain's Clerk, Wm. T. Crowninshield, on board, and made a great effort to save Lieutenant Commander Stewart, but he sank just before I reached him, saying, as he went down, "For God's sake, save me." He was quite ill at the time.

THE OLDEST SPOT ON THE GLOBE.—Prof. Kerr, State Geologist of North Carolina, in speaking of Black Mountain in that State, says: "These rocks belong to the most ancient of the azoic series. The intensity of the metamorphism, the characteristic rocks and their contained minerals, together with the total absence of anything like organisms in even the least altered and latest of the series, render this conclusion inevitable. And not only do they belong to the lowest geological horizon, but the entire absence of all representatives of the later formations makes it further necessary to conclude that we have here an extensive tract of the oldest land on the globe."

FINANCE AND COMMERCE.

PORTLAND, Wednesday, March 23, 1870.

No gold quotations to-day.

Legal tenders remain steady at 89.

The *Alta* of the 16th reports a shipment of treasure per steamer *Montana*, which sailed on the 15th, amounting to $809,000; of which $799,448 84 goes to England, and the balance to Panama. The shipment may be regarded as a depletion to the whole amount shipped, of the circulation of the United States. Last year there were five steamers in March, and they took in the aggregate $438,521 treasure to England, and $76,130 to France. This year two steamers in March take $1,350,127 to England of which $656,535 is in silver and the remainder in gold bars.

The arrival of the steamship *Moses Taylor* from San Francisco has imparted an appearance of activity to business circles. Our merchants are receiving liberal additions to their stocks, at all events, whether their sales keep corresponding pace or not. Trade, however, has been more active to-day than heretofore, during the week. We learn of some very fair bills of dry goods and hardware, turned out to-day. Thus far, though many staples are higher or are held very stiff at former prices, at San Francisco, our dealers are not disposed to make any advance in quotations. It is unnecessary to say, perhaps, that all staples are, however, held firm.

In the produce market, the usual quiet prevails. It is not yet fully known whether the offerings for shipment will be enough to fully load the *Moses Taylor* for her return trip. At present, the prevailing feeling among shippers is one of indifference, the prices nowhere justifying either haste or large movements of produce.

The receipts to-day were 292 boxes apples, 68 boxes eggs, 109 sks feed, 31 cs bacon, 1,544 qr sks flour, 4 cs lard, 10 sks oats, 472 sks wheat and 10 tons pig iron.

The steamer brought up good supplies of oranges, lemons, limes, and sweet potatoes, but no vegetables worth mention. Of the latter the market is almost utterly bare, of all green varieties.

To the 18th inst. the receipts of Oregon produce at San Francisco, from January 1st, were: Flour, qr sks 169,400; Wheat, sks 32,359; Oats, 8,852; Salmon, bbls 16, hf bbls 251, cs 33, pkgs 4; Bacon, pkgs 1,769; Beef, bbls 29; Butter, pkgs 338; Hams, pkgs 177; Lard, pkgs 233; Pork, bbls 1,894; Dried Apples, pkgs 512.

From the *Bulletin* of the 18th, we clip the following paragraphs:

The Pacific Mail Company's steamer Montana sailed for Panama at noon to-day, with 369 passengers, $809,000 in treasure, and merchandise to New York to the value of $18,000. The Wool shipment amounted to 172,000 lbs. There was also shipped 173,000 lbs California hops in transit for England, valued at $20,000.

During the first half of the current month, 17 vessels arrived at San Francisco from distant ports. These vessels represented 10,200 tons of tonnage, and brought cargoes on which the freight collected amounted to $158,500. The figures compare as follows with those for the corresponding period in previous years:

	Vessels.	Tons.	Freight.
March 1 to 15, 1867	27	21,608	$433,321
March 1 to 15, 1868	23	16,063	301,854
March 1 to 15, 1869	29	24,502	521,452
March 1 to 15, 1870	17	10,205	158,551

Most of the arrivals for the first half of the current month came to hand on the 12th and 13th. Embraced in the arrivals were 3 vessels from Australia, 2 from Chile, 3 from New York, 2 from France, and 1 from each of the following ports: Baltimore, Batavia, Hamburg, Honolulu, Hongkong, Scammons Lagoon and Yokohama. There were five exclusive cargoes of Coal, two of Sugar and one each of Rice, Tea and Salt. The others brought assorted freight, including considerable quantities of Coal, Iron and other coarse goods.

Our news from the Sandwich Islands is to Feb. 27th. The barkentines *Jane A. Falkenburg* and *John Hancock* sailed on the 26th for San Francisco. The *D. C. Murray* and *Cambridge* are both waiting the arrival of freight from windward Islands, which, owing to the stormy weather, has come in very slowly. The *Cambridge* was loading for Portland.

Mining Intelligence.

The *Mountain Democrat* of the 19th says: "From Mr. Geo. Linkmier, lately from Eldorado, we obtain the following cheering intelligence from the mines of Baker county. Active preparations are being made to open the mining season in about two or three weeks. Reeves is building a reservoir and cleaning the snow out of the ditches owned by him. On and above Malheur and Quartz gulches the miners have a great quantity of drift dirt ready for washing, and sluice boxes are being made and set up ready for the water that is expected in a short time. There will be sufficient water furnished by the Reeves ditches to last at least two months, and as the gulches are drifted full of snow and the ground is pretty well water-soaked, it may last longer. The Burnt River Ditch is full of snow, and will not be opened for sometime. The report that this ditch was to be sold to a Chicago Company is a mistake, and negotiations looking to that end have not been entered into. The ditch was constructed mostly on the north hill side, and hence its not being opened earlier. Travel has commenced coming into the mines, and business is beginning to liven up some. A great amount of money will be taken out of El Dorado and the surrounding camps this spring."

San Francisco Markets.

[BY MAIL.]

By the arrival of the *Moses Taylor* we have advices to the 19th, from which we condense the following:

WHEAT—The receipts the past week were considerably more than those of a corresponding period last year, not a little of which is going forward to Liverpool upon consignment. Our markets for Flour and Grain are at present very inactive, for lack of any considerable export inquiry; besides, the great bulk of our cereal crop has been marketed and otherwise disposed of. The quantity yet to come forward is to be gauged entirely by the current market values; if prices should, for any unlooked-for cause, be high before harvest, receipts would be large; otherwise, many farmers will, as heretofore customary, hold over.

FLOUR—In the absence of any considerable export demand, our millers find little to occupy their attention, standing idle. Oregon continues her supplies with freedom, notwithstanding the low rates ruling. The *Benefactress*, for Yokohama, carried the bulk of 1,750 bbls.

ONIONS—Are in good demand at 2@3c ₩ ℔, according to order and quality.

WOOL—Divers small parcels of Spring clip have been received; two or more shipped East overland for sale, at 2¾c ₩ ℔ freight to New York. Other clean parcels have been sold at 18@20c ₩ ℔, according to quality. *Fall clip* is scarce at 12½@15c.

HIDES—All kinds very scarce. No. 1, Dry, good selection, would command 17@17½c for shipment; Salted, 7½@8c ₩ ℔.

TALLOW—The receipts are far short of supplying the current local demand from manufacturers at 10@10½c. A parcel of extra choice is reported sold at 11c.

EGGS—Oregon, plenty, at 22½@25c.

LARD—Oregon, limited demand at 13@14c ₩ ℔.

APPLES—The shipment per *Moses Taylor* sold from $1 50 to $2 20 ₩ box, averaging $1 75@2 00.

In the merchandise market there is little of importance to note, beyond an improved trade, and a small advance in Burlaps, candles, cordage, nails, and some articles of hardware.

Wholesale and Jobbing Markets.

AGRICULTURAL IMPLEMENTS—Seasonable goods—"Saltley's" or "Skinner's" Gang Plows, $80@90; Buckeye Grain Drills, $120@125; Cast Steel Plows, $16@20; Moline, Peoria, Boston Clipper, and other steel plows, $14@18; Breaking Plows, 25@40; Cultivators $10@16; W[illegible]tt's Patent Churn, $5@10; "Bain's" Wisconsin made Farm Wagons, complete with double box, brake, etc., $175@180.

BAGS AND BAGGING—Burlap bags, 22x36, 12c each; do, 23x40, 13c; Dundee gunnies, 16½c; linen bagging, per yd, 11½c; burlap, per yd, 11½c.

BUILDING MATERIALS—New Jersey Cement, ₩ bbl., $5 00; Knapp's, $4 50@5 00; Santa Cruz Lime, ₩ bbl., $2 75; San Juan do., $2 75; Calcine Plaster, $5 00; Land, $3 50. Lumber—Assorted rough fir, $14@16; dressed, $22@30; flooring, $26@30; laths, $3 per M, cedar shingles, $2 50; redwood boards, dressed, $47 50@50; Eastern hardware, 10@20c per foot.

TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years' standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice, or depraved sensual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of his complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, as you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.

Correspondents will please inform DR. GIBBON that they read his advertisement in the *Daily Oregonian*. jy6d4ptf
